Dhurakij Pundit University has been prioritizing sustainability activities for several years. This includes designing structures with a focus on environmental considerations, dedicating over 50% of green areas on campus, and promoting sustainability awareness among faculty, staff, and students through various initiatives at the university and faculty level.

Moreover, the university actively encourages research on sustainability and allocates up to twenty percent of its annual budget to physical and environmental development. Its commitment to the environment has resulted in numerous accolades and recognition from national and international organizations.

DPU Target

The development objectives of the university will prioritize sustainability. Its operations shall adhere to the ESG Framework, which encompasses Environment, Social, and Governance factors, while considering the unique context of a private higher education institution.

E - Environment

The university is committed to preserving and protecting the environment by utilizing responsible resource practices at every level. This approach prioritizes sustainability and aims to reduce environmental impacts through research, innovative initiatives, development projects, and events. As a result, the university seeks to educate and provide environmental experiences to students, faculty, and other stakeholders, thereby increasing awareness of environmental protection and preservation.

S - Social

The university plays an essential role in cultivating socially responsible practices and their implementation, thus contributing to the development of a high-quality and sustainable society. It is imperative to treat staff members equitably and engage with students and stakeholders to ensure that everyone benefits from the associated advantages.

G - Good Corporate Governance

The university aims to establish an organization with knowledgeable and experienced personnel who are also responsible global citizens (i.e., decent citizens). To sustain competitiveness and promote growth, the organization must prioritize consistency and innovation. This can be achieved through the implementation of a sound governance structure and effective risk management protocols.
